

Unarvu Overall Equipment Effectiveness Matrix

Machine Interface

Reason Entry Unit

**Robust Machine
Monitoring Unit**

**IP65
Enclosure**

**TFT
touch screen**

As Easy As 1,2,3

Step 1

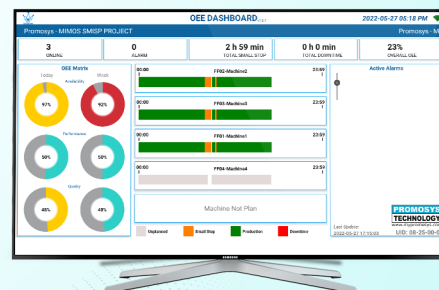

Get Unarvu Energy Usage +
Vibration IOT Sensor Hub

Your Machine

Step 2

Connect Voltage, Current
at selected DB and
Vibration at selected asset

Step 3

Login to Platform to audit
your energy usage and monitor
your asset vibration reading

Technical Specification

Reason Entry Unit

Operating Voltage	10-36VDC	Machine Reason	10
Power	15W	Product Reason	10
Digital Input	8 DI	Expandable Option	YES
Digital Output	8 DO	Display Size	222mm x 133mm
Analog Input	8 TC	Display Resolution	1024 x 600
PLC Interface	1 x RS-485	Communication	LORA / WIFI
Quality Reason	10	BackLog	14 Days Record
